Maple Ridge, BC · 604-803-3847

[meganheinzl@gmail.com](mailto:meganheinzl@gmail.com) · [LinkedIn](#) · <https://megan.dev/>

- Adaptable, detail-oriented web developer with three years of experience in an agency environment.
- Experienced in HTML/CSS, JavaScript, WordPress, with a strong desire to learn new technologies.
- Quick learner and strong problem solver, skilled at prioritizing multiple tasks and deadlines with minimal direction.
- Strong communicator and trouble-shooter, experienced with client interaction and assisting other developers in problem-solving.

## EXPERIENCE

**MAY 2019 – PRESENT**

**DEVELOPER, BSTRO**

- Developed responsive websites independently, working from mock-ups. Responsible for cross browser testing, checking compatibility across different devices, following best practices.
- Worked collaboratively with other developers on websites to implement new features, improve existing features, as well as creating new websites from the ground up.
- Reworked company starter theme into a prototype headless Gatsby/WordPress site in downtime.
- Created and maintained documentation for multiple websites, internal processes, as well client- specific processes in internal Wiki.
- Point of contact and lead for a high-profile retainer client spanning multiple years, working with multiple Drupal sites, project managers and Salesforce Marketing Cloud.
- Developed, tested and troubleshooted HTML emails from scratch and sent to tens of thousands of people at a time.
- Assisted in interviewing, training and directing new hires.
- Commonly assisted other developers in debugging and troubleshooting technical problems.

## EDUCATION

**SEP. 2019 – MAR. 2019**

**TECHNICAL WEB DESIGN, BCIT**

- Intensive front-end web development program, focusing on teaching current best-practice skills and tools, problem-solving, providing hands-on experience and working in teams.
- Completed various projects utilizing HTML/CSS, JavaScript, React, WordPress, PHP and Adobe Creative Cloud.
- Worked on collaborative projects with classmates, including the final project making a website for a local small business.
- Often aided classmates with troubleshooting and assignments if instructors were busy.
- Consistently high marks, averaging above 95% throughout the program and graduated with distinction.

SEP. 2015 – SEP. 2017

## GENERAL STUDIES, DOUGLAS COLLEGE

- Two introductory Python courses completed with a grade of A+, introductory C++ course completed with a grade of A.
- Achieved a GPA of 3.82 over 2 years of classes.

## PROJECTS

SEP. 2019 – MAR. 2019

### PROJECT HIGHLIGHTS, BSTRO

- [Solgar](#), [Sundown Nutrition](#) – Had large role in the styling and developing of websites for Nature’s Bounty brands, including the product archive pages, product single pages, global content blocks, and blogs. Solgar was built with the classic WordPress editor, and Sundown Nutrition was made with the Gutenberg editor.
- [KoBold Metals](#) – Developed homepage redesign on existing site to include SVG animations that trigger based on scroll position. Utilized custom plugin and shortcodes, and Advanced Custom Fields plugin.
- [1440 Foods](#) – Built site from start to finish in 5 business days due to tight deadline. Worked closely with one other developer while continuing work on other projects. Utilized custom post types, Advanced Custom Fields plugin, and custom shortcodes to build a user-friendly site based on mockups.
- [Digital Sexual Health Initiative](#) – Sole developer on this project for the BCCDC. Involved interconnecting multiple Custom Post Types, Taxonomies, and ACF fields throughout various template files. Special attention was paid to user experience for the content managers, ensuring everything was straight forward.
- Gatsby Launchpad – Working to make a headless version of our starter theme with Gatsby, using WordPress as the CMS, hosted on Gatsby Cloud. Currently a work in progress, done during downtime for the purpose of learning and potentially using for future projects.
- W.L Gore and Associates – Point of contact and lead for multiple year retainer client. Produced and maintained documentation and trained other developers on client-specific processes. Attention to detail, timeliness and thoroughness was very appreciated and resulted in multiple additional contracts from other areas of the enterprise.

## SKILLS AND TOOLS

HTML5 – CSS – Sass – JavaScript – WordPress – Gatsby – GraphQL – React – jQuery – PHP – Bootstrap  
– Image Editing – Email Development – Git

GitHub – Gulp – Grunt – NPM – WooCommerce – ACF – Gravity Forms – Adobe Suite – InVision –  
Klaviyo – SFMC – Litmus – Guru – Asana – Harvest – Slack

## INTERESTS AND HOBBIES

gardening – collecting rare plants – video gaming – keeping and breeding exotic animals – hiking –  
camping – spending time with my pets – designing custom terrariums – going to concerts – aquascaping  
and fish-keeping
